Swedish Election Study 1985

- Questionnaires -
The Swedish Election Studies Programme

The Swedish Election Studies Programme was initiated by Jörgen Westerståhl and Bo Särlvik in the mid 1950s, shortly after the Michigan Election Studies began. The first studies were done in conjunction with the local elections in 1954 and the parliamentary elections in 1956.

In all parliamentary elections since 1956, as well as in the ATP referendum in 1957 and the Nuclear Power referendum in 1980, a large representative sample of eligible voters has been interviewed. The basic design in the latest studies has been a rolling panel in which half of the sample has been interviewed in connection with the previous election, and the other half in connection with the succeeding election. In recent years the sample size has been approximately 3600 and the response rate 75 to 80 per cent.

The early Election Studies were directed by Jörgen Westerståhl (1954-1956), Bo Särlvik (1954-1973) and Olof Petersson (1973-1976). The most recent studies have been directed by Sören Holmberg (1979-1991) and Mikael Gilljam (1985-1991). The most recent publication from the programme is Väljarna inför 90-talet (The Voters Facing the 90s) by Mikael Gilljam and Sören Holmberg (Stockholm: Norstedts Juridik 1993).

The questionnaires from the 1985 Election Study were translated into English by Anders Widfeldt.
Swedish Election Study 1985 (SSD 0217)

Principal investigators: Sören Holmberg and Mikael Gilljam, Department of Political Science, Göteborg University.

Total sample: 3,704

Number of respondents: 2,883

Sample loss: 821 (22.2 %)

Number of variables: 484

Weight: Respondents belonging to the 1982-1985 panel who did not respond in 1982 had their sample probability halved in 1985. These are represented by two records in the data file. The number of respondents is therefore 2,944 and the sample loss is 929.

Method: Interview in home. One-half of the sample was interviewed before election day, the other half after. Pre-election respondents also answered a short mail questionnaire after the election, which mainly contained questions on final vote decision.

Panel: The study represents stage two in the 1982-1985 panel and stage one in the 1985-1988 panel.

Format: OSIRIS, SPSS-x, machine-readable codebook. Available at SSD (Swedish Social Science Data Bank) in Göteborg.

Interviewer instruction after last question (no. 54), added on last page of post-election questionnaire:

HAS R. REFUSED TO ANSWER ABOUT HIS/HER VOTING IN 1985?

If R. has refused to answer q. 31A or 31B, ask if R. would like to indicate how he/she voted, using the voting card. If so, let R. complete the voting card and close the envelope him/herself.

1985 ELECTION SURVEY

To those who have been interviewed

Thanks to the kind participation of you and many others, we have been able to complete a survey in connection with this year's election. We hope that it will bring valuable and reliable results.

Our survey ends with this little mail questionnaire. Among the contents are a few questions we were unable include in the pre-election interviews for practical reasons.

We would be very grateful if you would answer the questions, and then return the questionnaire in the enclosed envelope. The address is printed on the envelope, and no stamp is needed. Please mail the envelope as soon as possible, preferably today or tomorrow.

Your answers will be treated anonymously. No outsider will get to know your answers. The answers will merely be used for statistical analysis, and only be presented as figures in tables. The answers of individuals can not be inferred from the tables.

Yours faithfully

AS YOU KNOW, WE HAD THREE ELECTIONS AT THE SAME TIME THIS YEAR, that is the parliamentary (riksdagsval), regional (landstingssval) and local (kommunfullmäktigeval) elections (except in Göteborg, Malmö and the island of Gotland, where no regional elections were held).

Our questions concern your voting in the three elections. We would also like to ask you when you decided how to vote, to what extent you had the opportunity to watch election programmes on TV before the election, what you thought about the election campaign and whether you voted at the post office.

Answer by ticking ☐ the appropriate squares.

FOOTNOTE: In the 1985 election, the Centre Party and the Christian Democrats had an agreement which meant that the parties went to the polls under a common designation, "The Centre". In the original mail questionnaire, q. 1 included a follow-up question to respondents who answered that they voted "Centre". They were asked to indicate whether they had voted for a list with only Centre party candidates, only Christian Democratic candidates or any other type of Centre list. It has not been possible to insert this question in the same place as in the original questionnaire.
